EDUCATION

California Polytechnic State University

Bachelor of Science in Computer Science; Dean's List x1

Relevant Coursework: OOP, Systems Programming, Software Engineering, Database, Security, Programming Languages, Software Evaluation

San Luis Obispo, CA

Expected Graduation: June 2026

SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, HTML/CSS, C, SQL, RISC-V Assembly, R

Web Development: React, Node.js, Next.js, Material-UI, Express.js, Mongoose, RESTful API, Tailwind CSS, shadcn-ui, Three.js

Frameworks & Libraries: AWS (EC2, RDS, S3), Firebase, Figma, Passport.js, Prisma, OpenAI API, Stripe API, Google OAuth, TensorFlow, OpenCV, PyTorch

Databases: MongoDB, MySQL, PostgreSQL

Tools & Operating Systems: Linux, Git, GitHub, CI/CD Pipelines (Vercel, Render, Heroku), Kaggle, Data Training

EXPERIENCE

Richemont

New York, NY

Technology & Client Experience Intern | React, Node.js, Express.js, SQL, UI/UX design

June 2025 – August 2025

- Built a secure internal web portal with **React** and **Node.js** to allow IT teams to export filtered employee data from a cloud API to CSV; scaled to handle 350K+ records with token-based auth and retry logic.
- Engineered a management UI for Cartier's CRC to streamline employee list maintenance, supporting role editing, new hire tracking, inline updates, and export to SFTP-compatible formats.
- Designed and implemented backend logic for change tracking and data reconciliation across business units, using **SQL** joins and delta comparisons to ensure accurate, auditable exports.

Break Through Tech AI

New York, NY — Remote

AI/ML Fellow | Python, scikit-learn, TensorFlow, PyTorch, Jupyter Notebook

April 2025 – Present

- Training in **ML model** development and evaluation through weekly labs and projects; preparing for an applied AI capstone with an industry partner.

Swing Phi — Startup

Nashville, TN — Remote

Software Engineer Intern | React, TypeScript, UI Design, Agile Development

Jan 2025 – May 2025

- Built responsive, performant UI components using **React** and **TypeScript**, contributing to a scalable and maintainable codebase.
- Collaborated cross-functionally in an agile team to prototype and refine features, optimizing layout and styling for consistent UX across devices.

alpha Kappa Delta Phi International Sorority, Inc.

San Luis Obispo, CA

Web Developer, Media Relations, & Recruitment Chair

Dec 2022 – Present

- Developed a new chapter website with a modern, user-friendly interface, reducing costs by replacing a third-party platform and improving the organization's online presence (github.com/riannalei/sloakdphi-site.git).

Google Computer Science Summer Institute

Los Angeles, CA — Remote

Intern

Jul 2022 - Aug 2022

- Collaborated with peers to develop and present a comprehensive web project using **HTML/CSS** and **JavaScript**, enhancing technical skills and teamwork in a professional setting.

PROJECTS

TaskStars (github.com/taskStars/TaskStarsProd.git)

Next.js, React, Node.js, Express, MongoDB, Tailwind CSS, OpenAI, Socket.IO

Aug 2024 – Oct 2024

- Collaborated with a team of 3 to develop a full-stack task management app using **Next.js**, **React.js**, and **Node.js**, featuring task creation, priority management, and secure user authentication.
- Implemented a **REST API** and full CRUD operations with **Express.js** and **MongoDB**, efficiently handling over **100** tasks per day and improving backend performance.
- Designed a responsive frontend with **Tailwind CSS**, enhancing user satisfaction by **15%** through intuitive UI and seamless frontend-backend communication.

Leaf & Carry (github.com/riannalei/Leaf-and-Carry)

Next.js, React, TypeScript, Prisma, PostgreSQL, Tailwind CSS, shadcn-ui, Vercel

Aug 2024 – Sep 2024

- Built a customizable e-commerce site with **Next.js**, featuring drag-and-drop uploads, design previews, and responsive layout.
- Developed an admin dashboard using **Prisma** and **PostgreSQL** for order tracking, inventory, and user metrics.
- Designed a modern UI with **shadcn-ui** and **Tailwind CSS**; deployed via **Vercel** and improved mobile usability by **30%**.
