EDUCATION

California Polytechnic State University

San Luis Obispo, CA

Bachelor of Science in Computer Science; Dean's List x1

Expected Graduation: June 2026

- **Extracurricular:** alpha Kappa Delta Phi - Web Developer, Recruitment Chair, Media Relations; Society of Women Engineers; Cal Poly Scholars, CSA

EXPERIENCE

Richemont

New York, NY

Software Engineer Intern (Technology & Client Experience) | React, Node.js, Express.js, SQL

June 2025 – present

- Designed and built a secure internal web portal in **React** with filtering, inline editing, and bulk updates, reducing manual spreadsheet work for administrators by 90% and cutting boutique data update time from hours to minutes.
- Developed backend services in **Node.js** and **SQL Server** to pull and reconcile thousands of employee records from a cloud API, eliminating duplicate entries and increasing data accuracy by 98%.
- Implemented export pipelines to stream cleaned data to CSV/Excel with safe filename handling and SFTP-compatible formats, reducing downstream data preparation time by 80%.

Break Through Tech AI

New York, NY | Remote

AI/ML Fellow | Python, scikit-learn, TensorFlow, PyTorch, Jupyter Notebook

Apr 2025 – Present

- Completed 9-week machine learning curriculum covering supervised/unsupervised learning, model evaluation, and data preprocessing through hands-on labs and projects.
- Applied **Python**, **scikit-learn**, **TensorFlow**, and **PyTorch** to build and evaluate models in Jupyter Notebook.

Bloomberg

New York, NY | Remote

Tech Insights Fellow | Python

June 2025 – Aug 2025

- Participating in Bloomberg's summer fellowship program focused on advanced data structures, algorithms, and system design through engineer-led workshops.
- Engaging in mock interviews and technical problem-solving sessions with Bloomberg engineers to refine coding, communication, and interview skills.

Swing Phi — Startup

Nashville, TN | Remote

Software Engineer Intern | React, TypeScript, UI Design, Agile Development

Jan 2025 – May 2025

- Redesigned unresponsive UI by creating reusable **React** + **TypeScript** components, improving load times and visual consistency across devices.
- Worked with designers and backend engineers in agile sprints to rapidly prototype and refine features, learning to balance speed with maintainability in a startup setting.

Google Computer Science Summer Institute

Los Angeles, CA — Remote

Intern | HTML, CSS, Javascript

Jul 2022 - Aug 2022

- Collaborated with peers to develop and present a comprehensive web project using **HTML/CSS** and **JavaScript**, enhancing technical skills and teamwork in a professional setting.

SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, SQL, C, HTML/CSS, RISC-V Assembly, R

Web Development: React, Node.js, Next.js, Express.js, RESTful API, Tailwind CSS, Three.js, Mongoose

Frameworks & Libraries: AWS, GCP, Azure, Firebase, Prisma, TensorFlow, PyTorch, pandas, scikit-learn

Databases: MongoDB, MySQL, PostgreSQL

Tools & Operating Systems: Linux, Git, GitHub, CI/CD Pipelines

PROJECTS

TaskStars (github.com/taskStars/TaskStarsProd.git)

Next.js, React, Node.js, Express, MongoDB, Tailwind CSS, OpenAI, Socket.IO

Aug 2024 – Oct 2024

- Built a full-stack task management app with **Next.js**, **React**, and **Node.js**, enabling task creation, priority tracking, and secure user authentication.
- Developed a **REST API** with **Express.js** and **MongoDB** to support full CRUD operations and handle 100+ daily tasks with improved backend performance.
- Designed a responsive UI with **Tailwind CSS**, increasing user satisfaction by **15%** through an intuitive layout and real-time updates via **Socket.IO**.

Leaf & Carry (github.com/riannalei/Leaf-and-Carry)

Next.js, React, TypeScript, Prisma, PostgreSQL, Tailwind CSS, shadcn-ui

Aug 2024 – Sep 2024

- Built a customizable e-commerce site with drag-and-drop uploads, design previews, and a responsive layout using **Next.js**.
- Created an admin dashboard with **Prisma** and **PostgreSQL** for orders, inventory, and metrics; boosted mobile usability by **30%**.

LANGUAGES

English (Native), Cantonese (Fluent), Mandarin (Fluent)
