Frameworks & Libraries: AWS (EC2, RDS, S3), Firebase, Figma, Passport.js, Prisma, OpenAI API, Stripe API, Google OAuth, TensorFlow, OpenCV, PyTorch

Databases: MongoDB, MySQL, PostgreSQL

Tools & Operating Systems: Linux, Git, GitHub, CI/CD Pipelines (Vercel, Render, Heroku), Kaggle, Data Training

EXPERIENCE

Richemont

Incoming Technology & Client Experience Intern

New York, NY

June 2025 - August 2025

- Selected for an summer internship at Richemont, focusing on full-stack development and innovative technology solutions across luxury brands.

Break Through Tech AI

Incoming Artificial Intelligence/Machine Learning Fellow

New York, NY — Remote

April 2025 - Present

- Selected from 3000+ applicants for Break Through Tech AI, a year-long fellowship with Cornell faculty focused on AI, ML, experiential projects, and mentorship.

Swing Phi

Software Engineer Intern

Nashville, TN — Remote

Jan 2025 - Present

- Implemented and refined **UI components** using **TypeScript**, ensuring responsive design, optimal performance, and seamless integration with the frontend architecture.
- Collaborated with a creative and dynamic team to brainstorm and refine ideas, driving innovative frontend solutions for a fast-paced startup environment.

alpha Kappa Delta Phi International Sorority, Inc.

Web Developer, Media Relations, & Recruitment Chair

San Luis Obispo, CA

Dec 2022 - Present

- Spearheaded recruitment strategies, increasing membership and engagement while fostering a supportive and dynamic community, and enhancing leadership and organizational skills.
- Developed a new chapter website with a modern, user-friendly interface, reducing costs by replacing a third-party platform and improving the organization's online presence (github.com/riannalei/sloakdphi-site.git).

Google Computer Science Summer Institute

Intern/Scholar

Los Angeles, CA — Remote

Jul 2022 - Aug 2022

- Collaborated with peers to develop and present a comprehensive web project using **HTML/CSS** and **JavaScript**, enhancing technical skills and teamwork in a professional setting.

PROJECTS

TaskStars (github.com/taskStars/TaskStarsProd.git)

Full-Stack Developer

Remote

Aug 2024 - Oct 2024

- Collaborated with a team of 3 to develop a full-stack task management app using **Next.js**, **React.js**, and **Node.js**, implementing features for task creation, priority management, and secure user authentication.
- Implemented CRUD operations for task management using **Node.js**, **Express.js**, and **MongoDB**, efficiently handling over **100** tasks per day, leading to improved performance and user satisfaction.
- Developed and integrated a **REST API** to facilitate seamless communication between the frontend and backend.
- Designed a responsive and intuitive frontend UI using **Tailwind CSS**, contributing to a **15%** increase in user engagement and satisfaction.
- Managed version control and collaboration by utilizing **Git** and **GitHub**, driving development efficiency through pull requests and issue tracking.
