EDUCATION

California Polytechnic State University

Bachelor of Science in Computer Science; Dean's List

San Luis Obispo, CA

Expected Graduation: December 2026

- **Extracurricular:** alpha Kappa Delta Phi - Web Developer, Recruitment Chair, Media Relations; Society of Women Engineers; Cal Poly Scholars

EXPERIENCE

Twitch (Amazon)

Solutions Architect Intern

San Francisco, CA

Incoming Summer 2026

- Selected to support the Developer Relations team in optimizing the technical journey for third-party developers and creators within the Twitch ecosystem.

Richemont

Technology & Client Experience Intern — Product Strategy, Figma, React, Node.js

New York, NY

June 2025 – Present

- Owned product strategy and delivery for permissions tool serving 1,700+ CRC staff, reducing manual workflow time from 6 hours to 1 hour biweekly (83% reduction).
- Accelerated development cycles by presenting **Figma** prototypes to senior leadership, facilitating stakeholder buy-in and prioritizing MVP features based on operational impact.
- Delivered a self-service tool by developing a **React** interface and partnering with engineering on **Node.js** workflows, enabling on-demand permission management globally.
- Established analytics framework and validation rules that reduced data errors by 80% and achieved 90%+ user adoption within the first month.

Break Through Tech AI (Meta AI Studio)

AI/ML Fellow — Jira, Agile, Python, TensorFlow

New York, NY — Remote

Apr 2025 – Present

- Defined the product roadmap for responsible AI research in a cross-functional team of 7, investigating demographic bias in NLP systems.
- Influenced AI research strategy by presenting findings to Meta AI Research Scientists regarding how Reddit-based NLP models perpetuate demographic stereotypes.
- Increased team velocity by 40% through the development of a reproducible ML pipeline and documentation, enabling rapid iteration on bias detection approaches.

Swing Phi (Fintech Startup)

UX/Software Engineer Intern — React, TypeScript, Product Design

Nashville, TN — Remote

Jan 2025 – May 2025

- Increased development efficiency by 25% by redesigning the platform interface and building a reusable **React + TypeScript** component library to ensure design consistency.
- Drove product strategy by conducting competitive analysis and translating usability research into product requirements that improved UX and supported business objectives.

SKILLS

Product Management: Product Design, Product Strategy, Roadmapping, User Research, Feature Prioritization, Data Analysis, Competitive Analysis, Go-to-Market Planning, A/B Testing, PRD Writing

Design & Prototyping: Figma, Wireframing, Prototyping, Usability Testing

Technical & AI/ML: Python, JavaScript, TypeScript, React, Node.js, SQL, TensorFlow, PyTorch, REST APIs, Git, Postman, Cursor, Claude

Agile & Analytics: Scrum, Jira, Monday, Sprint Planning, Google Analytics, Mixpanel, Excel, Notion, Miro

Cloud: AWS, GCP, Azure, Firebase

PROJECT

TaskStars ([Link](#))

Product Manager & Scrum Master — Next.js, React, Node.js, OpenAI

Aug 2024 – Oct 2024

- Achieved 95% on-time delivery for an AI-powered task platform by leading roadmap definition and Agile ceremonies for a 3-person engineering team.
- Identified differentiation opportunities through competitive analysis of Asana and Todoist, resulting in the integration of **OpenAI** for automated task prioritization.
- Launched full-stack application to 50+ beta users, implementing core features like authentication and real-time collaboration (built with **Next.js**, **React**, and **Node.js**).
